Allowable Subject Matter

1. Claims 10-14 are allowable over prior art .
2. The following is an Examiner's statement of reasons for the indication of allowable subject matter based on the Amendment filed on November 15, 2004.

As in claim 10, the prior art of record fails to teach or fairly suggest a method of producing a micro mirror having the following steps:

- (a) a first step at which a material for the hinges are formed as layer on one main side of a substrate material for the frame and mirror substrate;
- (b) a second step at which a resist layer is formed on the other main side of the substrate material on which a mirror surface is formed; and
- (c) a third step at which the frame and mirror substrate are separated from each other by the dry etching using the resist layer as a mask.

The features indicated above, in combination with the other elements of the claims, are not anticipated by, nor made obvious over, the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any response to this action should be mailed to:
